

Electronic Poker Tables

Cash Poker Pro

Find out how **Cash Poker Pro** Poker Tables can benefit your business and help you maximize earnings whilst also giving you the opportunity to introduce top hardware and software technologies into your businesses processes.

Premium craftsmanship

Our production lines are supervised by professional contractors and every part of every future product goes through a rigorous Quality Assessment process.

We use only top-quality leather and materials when creating our tables. Give your players an opportunity to marvel at the marriage of luxury and technology with our Poker Tables.

Excellent design

User-friendly Software guarantees your users will feel as at home playing at our Tables, and comes with premium-quality sound-effects and animations.

The interface can be customized to your liking to better fit your business and corporate style.

We automate **everything**

The Leading technology

Electronic Tables are a pinnacle of the Electronic Poker technology. Every table automates such routine tasks as counting the Pot, maintaining play order, letting people leave or join on demand and about every other task usually performed by an experienced Dealer including the possibility for visitors to change games they play on the go (“Dealer Choice”).

Minimize Hand to Hand delays and maximize your profit with each Poker Table!

Here’s how Cash Poker Pro Tables can help you automate the Tournament mode:

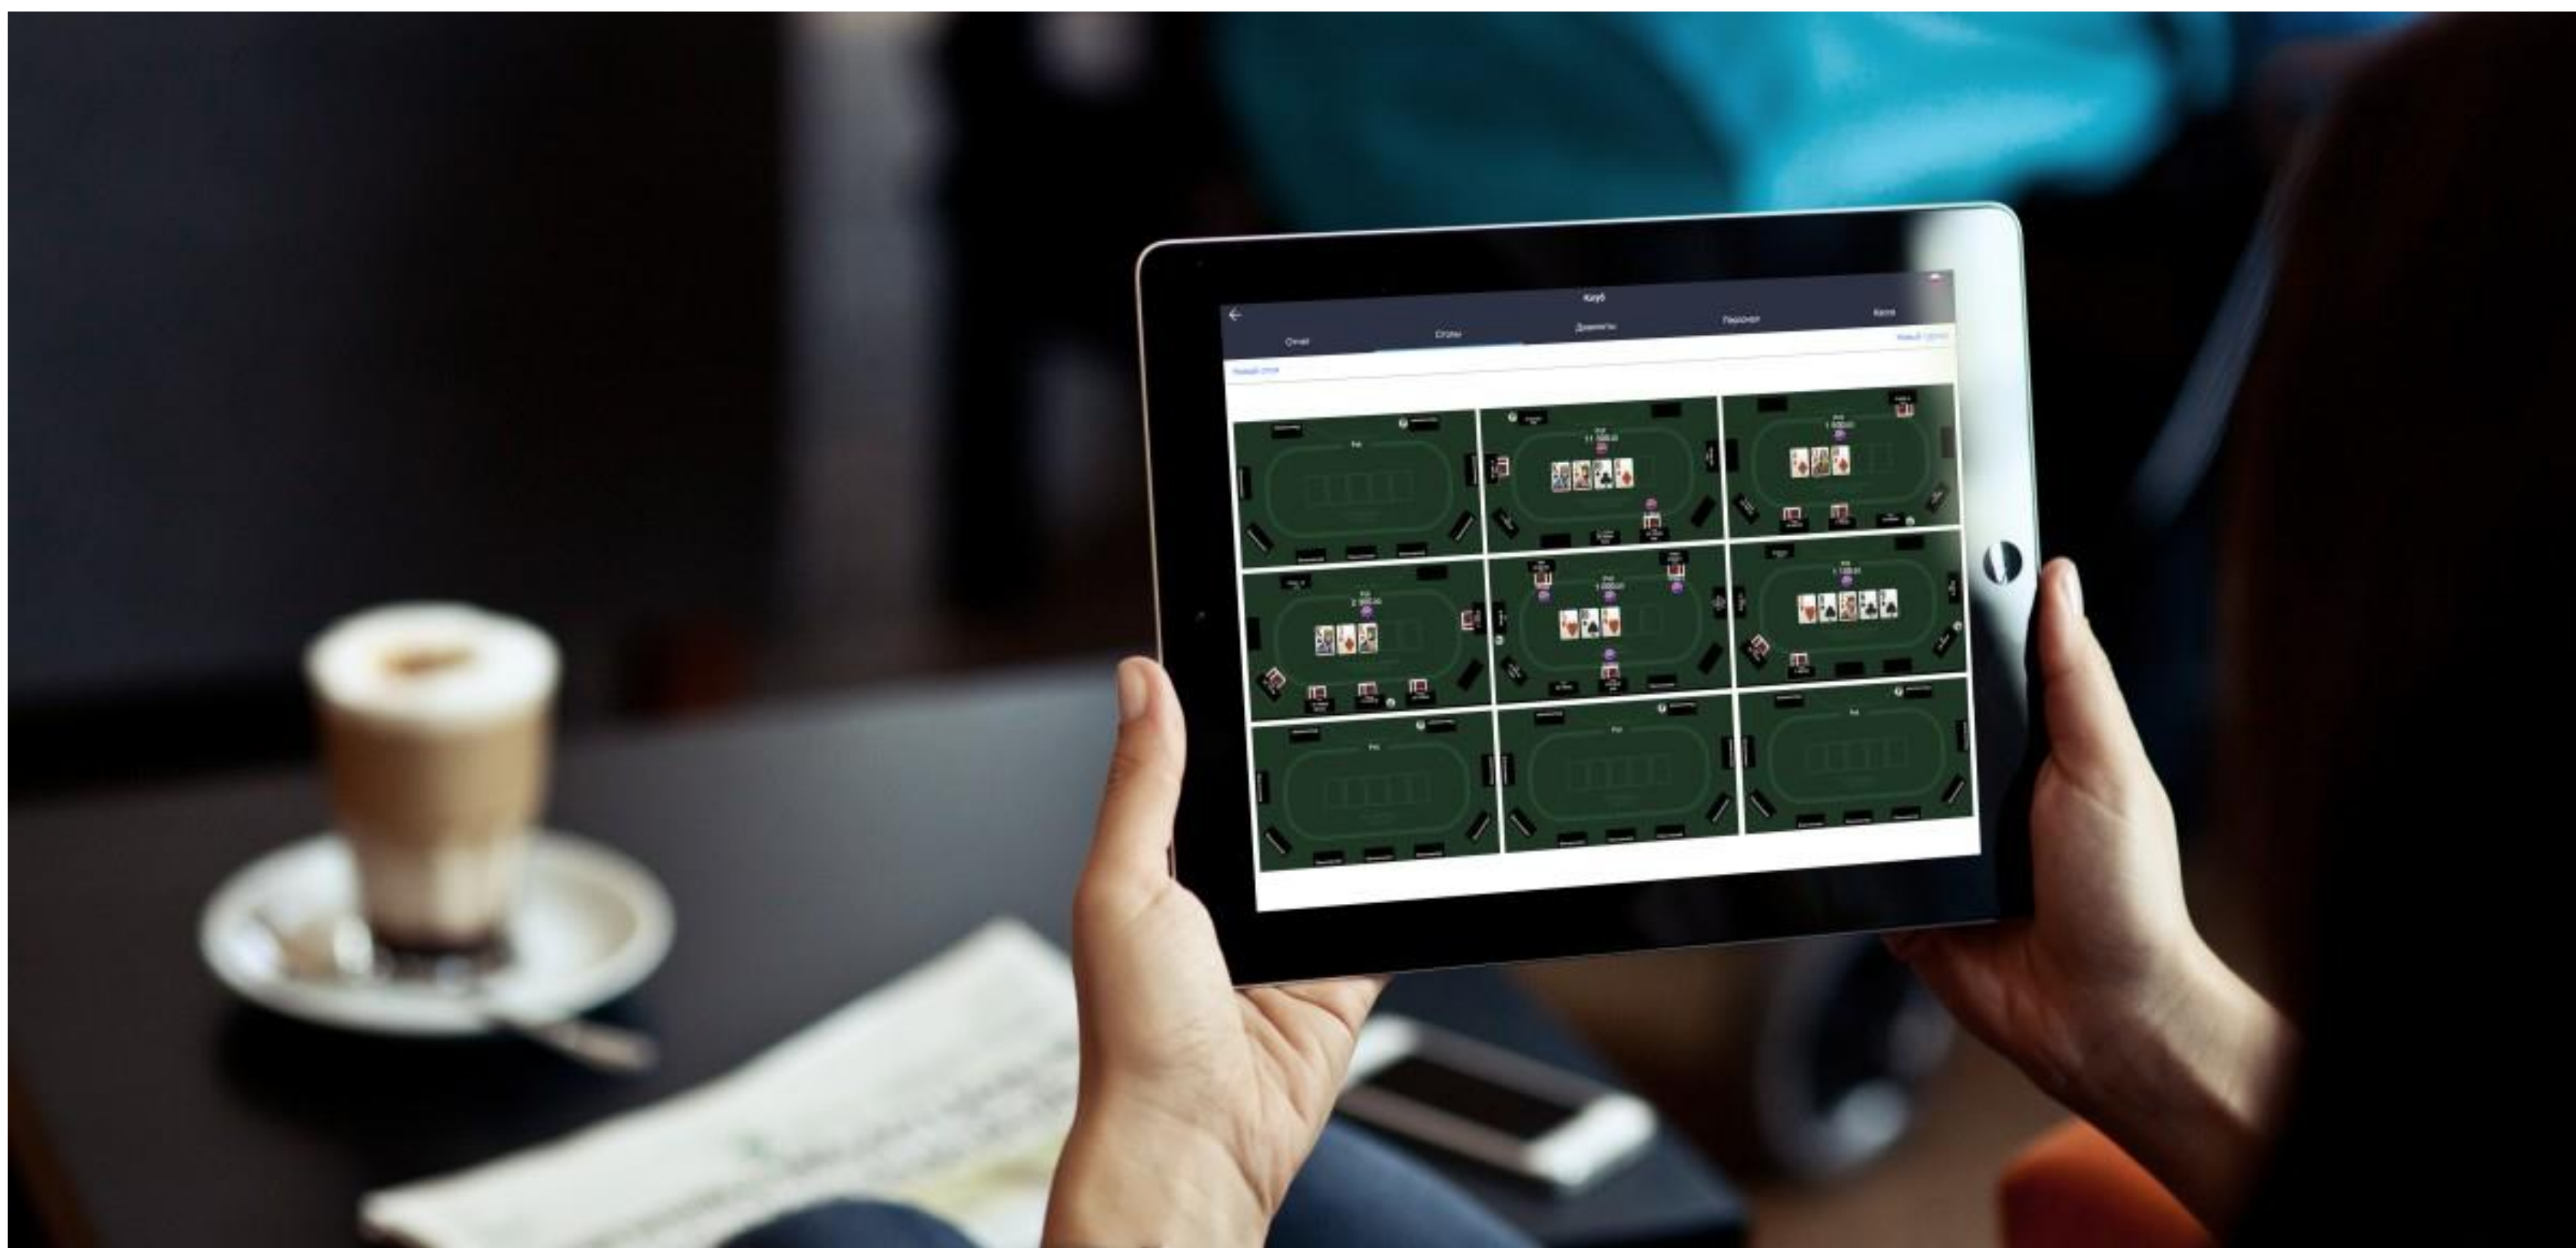

1. The Administrator uses a mobile Tablet device to choose the Tables for the Tournament, then sets up basic parameters and clicks "Start".
2. Players sit at the Table and the Table Software automatically logs them in and determines their turns.
3. Hall Administrator can rest easily: blinds raises, holds and breaks are controlled by the Table!
4. After the Tournament is over, the system determines the winners and writes off the chips off the balance of the club, while changing the Tables into Cash Mode.

Hassle-free monitoring

Administrator Control panel is built like an aircraft carrier, yet as simple to use as a coffee machine

By default you only see the most important stats and settings.

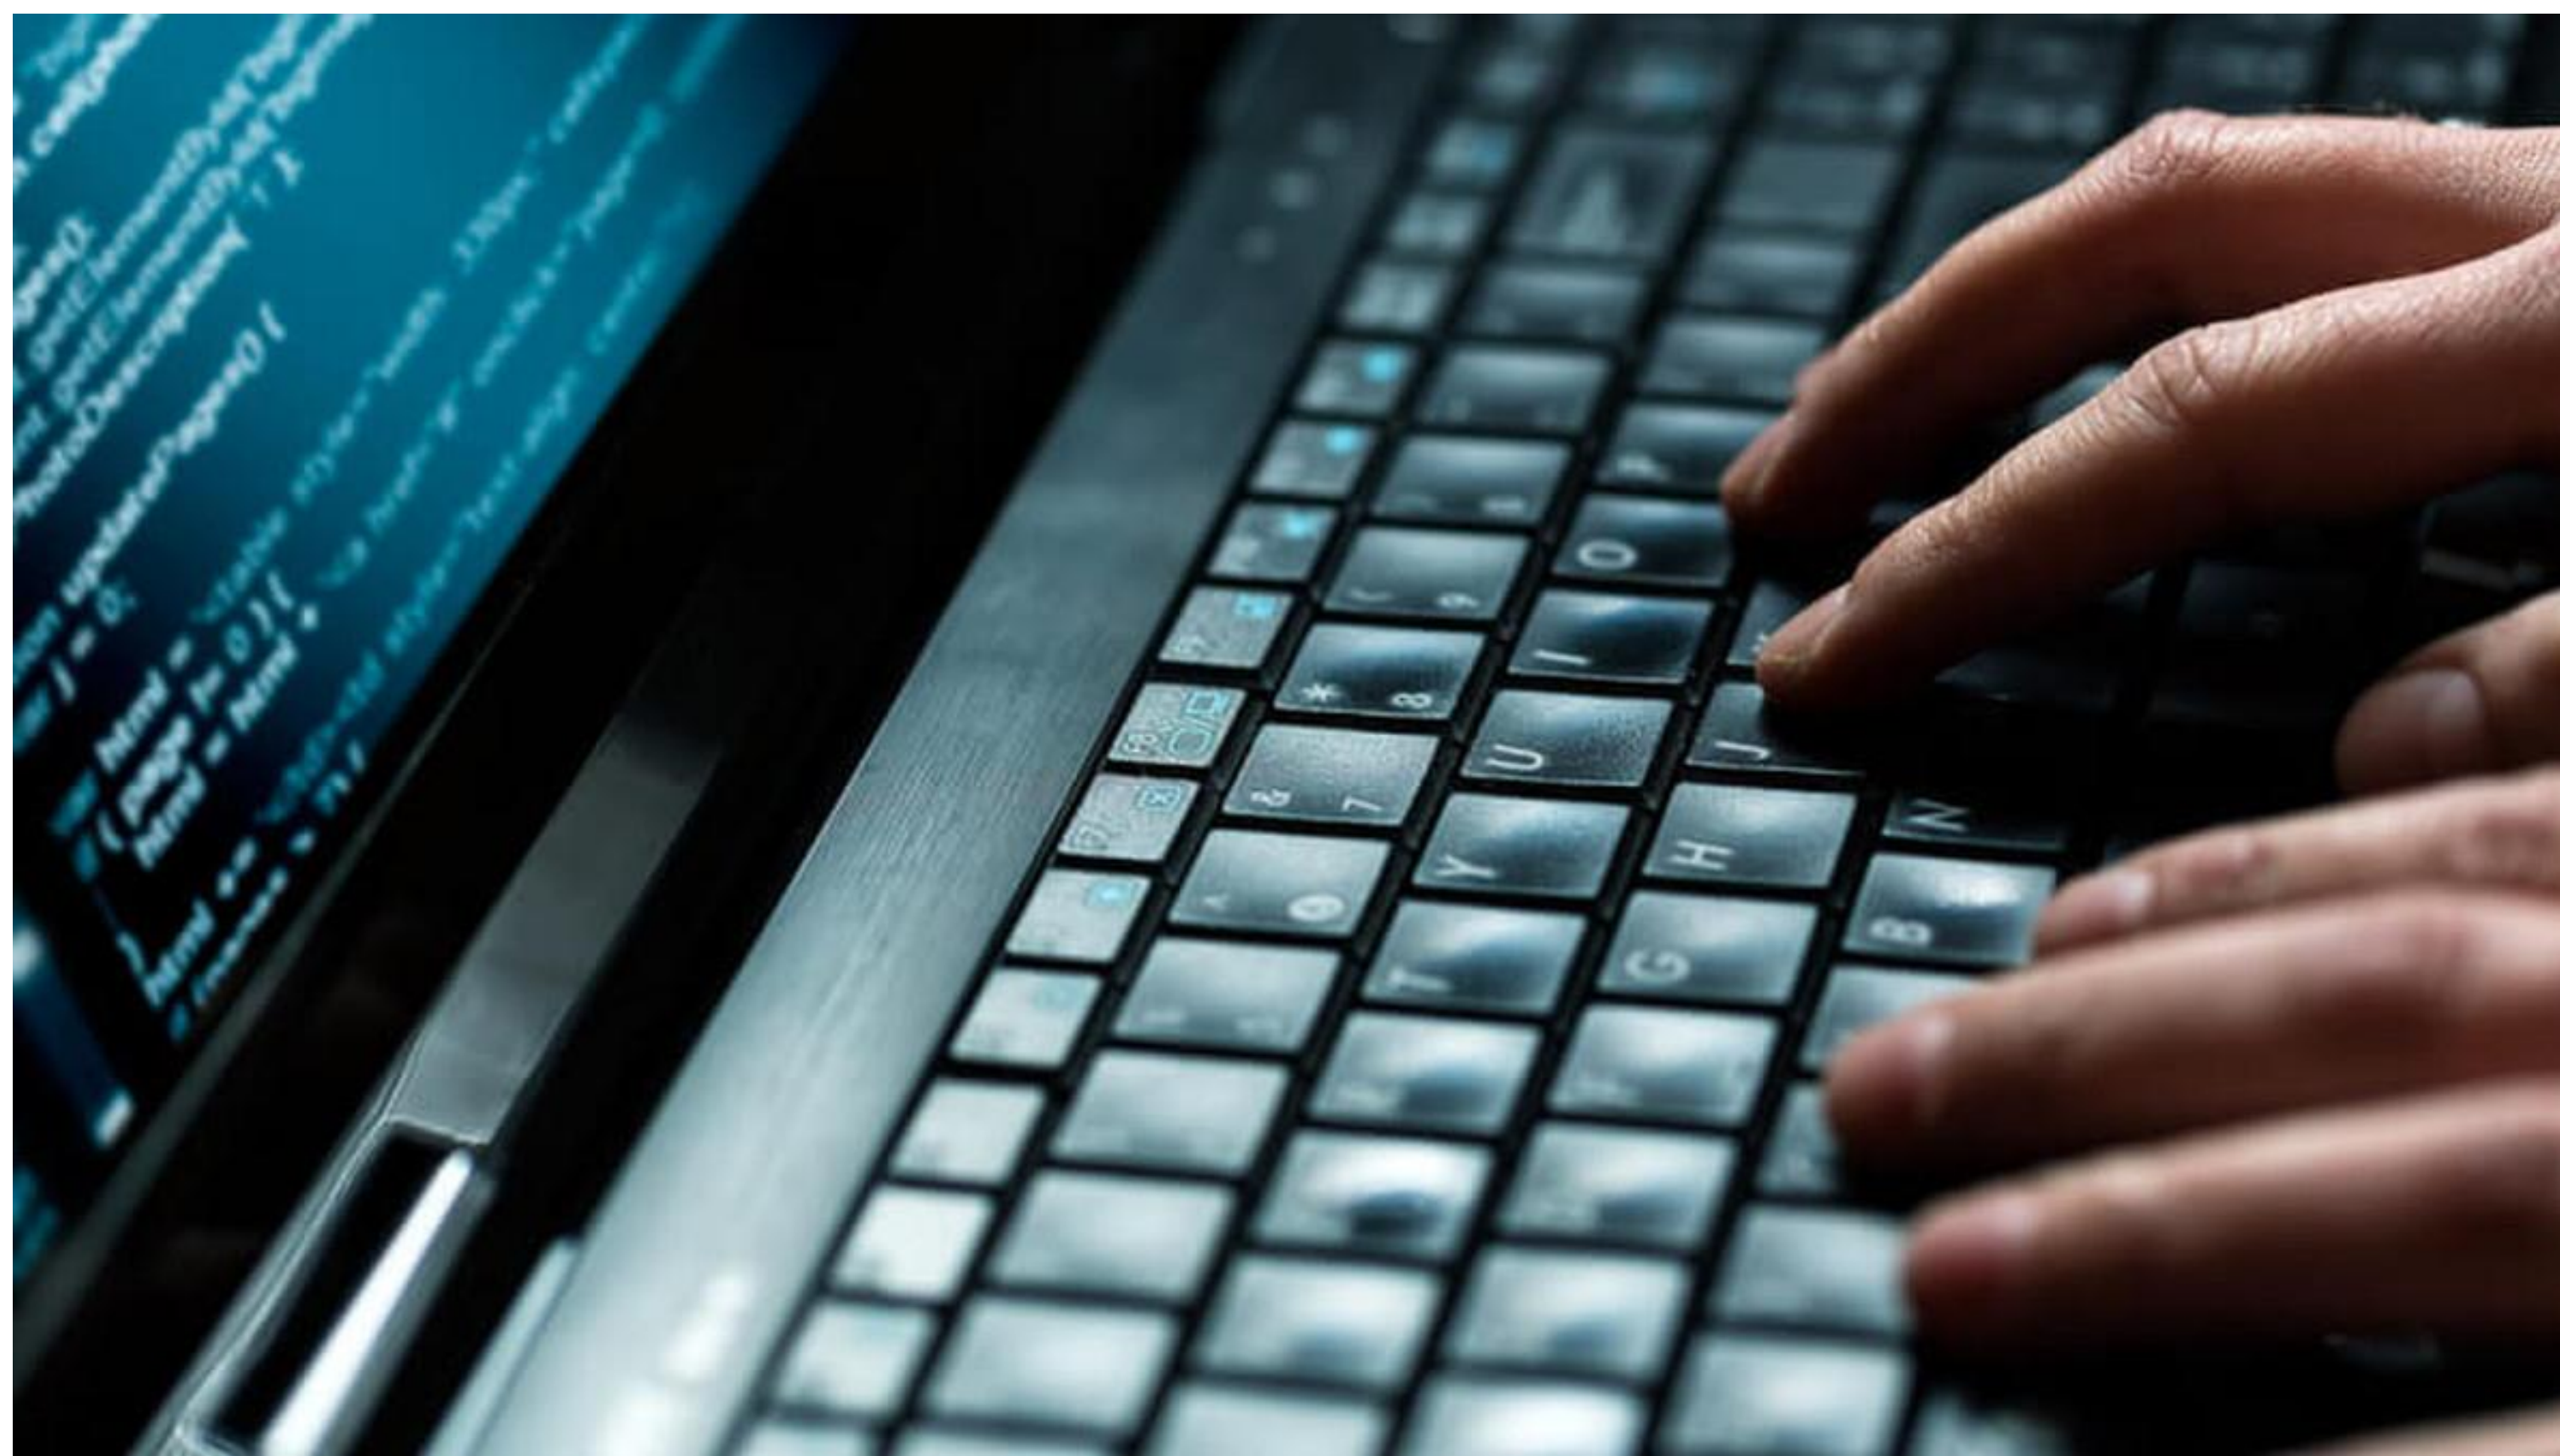

You can then switch into the detailed report mode and customize every aspect of the System, Cash Game or a Tournament.

Zero setup

After we deliver your Table, all you have to do is connect it to the Internet with a network cable and power it up.

That's it. The Table is ready to use and make profit right away!

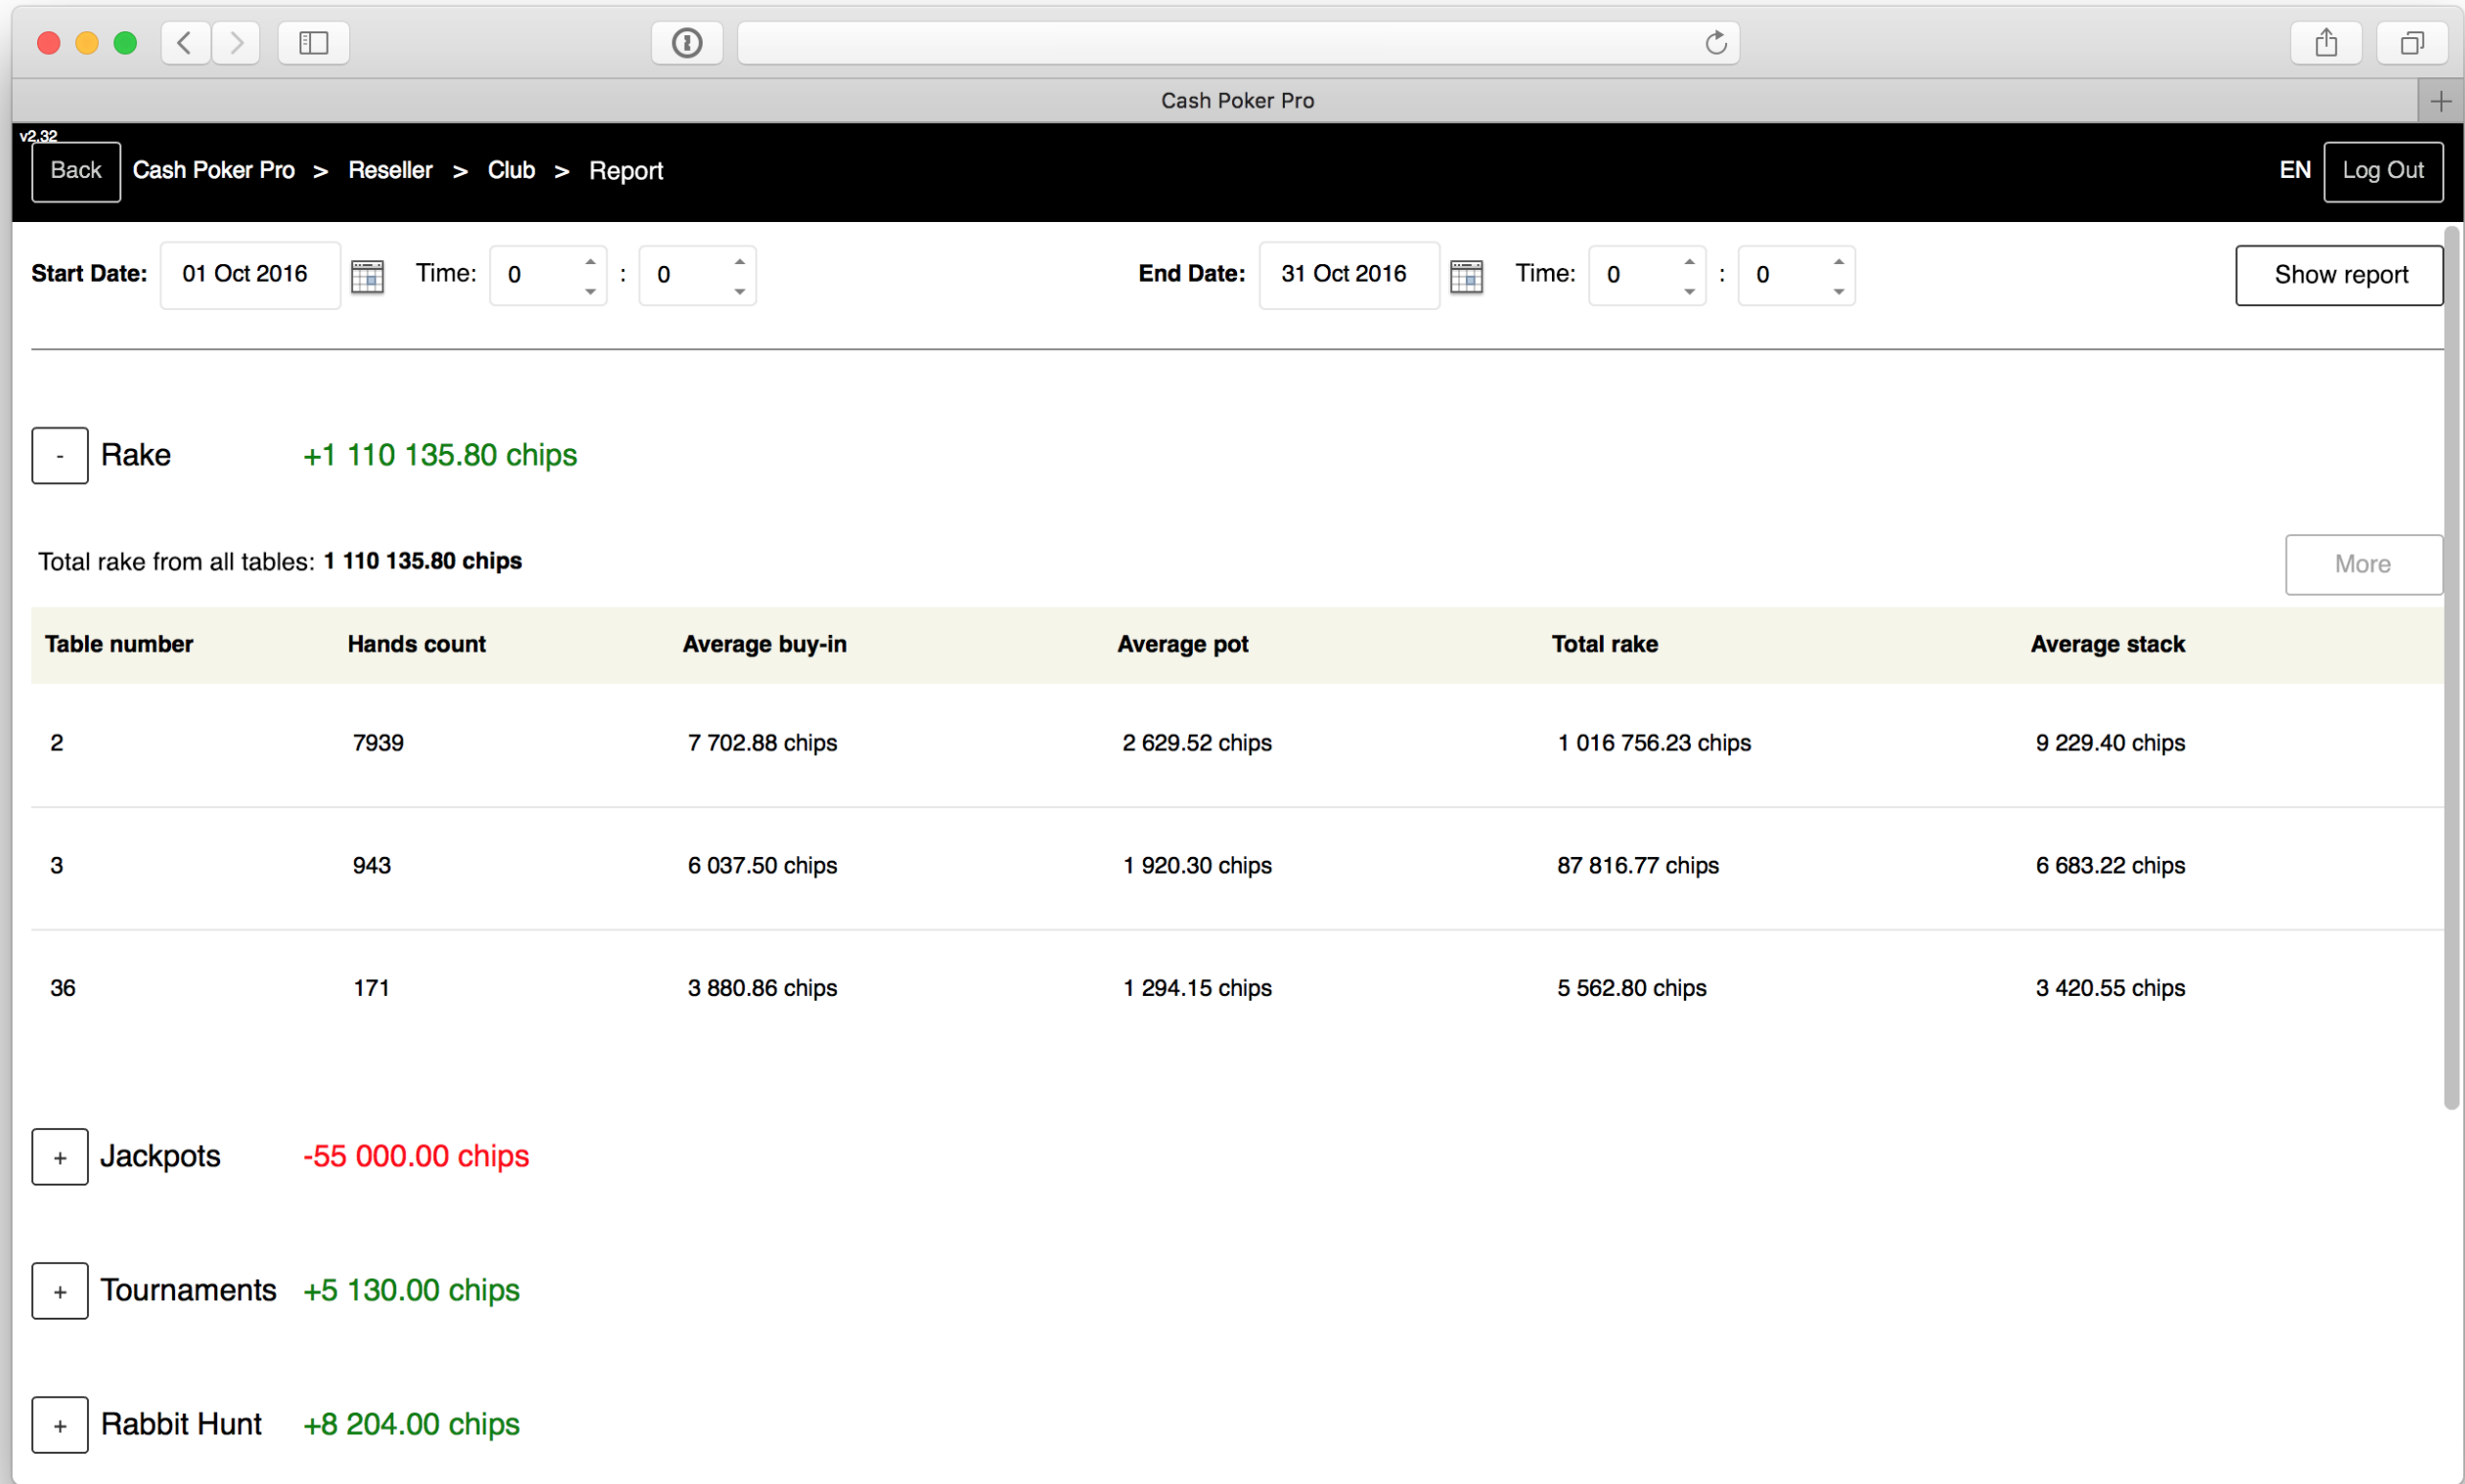

Control your business from anywhere

You have a 100% control over each process via your Control Panel or with a handy App on your mobile phone or a mobile tablet.

Our Admin Client Software supports most of the current operating systems (Windows, MacOS, Linux) and mobile devices running iOS and Android.

The new face of your Club

Every aspect of each game, events and financial reports at your fingertips.

Assess the overall status of all of your Tables in one click or ...

... dive in and see every hand, see average buy-ins, hands per hour, amount of players and other stats vital to the successful growth of your Club.

Spectate away!

Want to supervise a particular game? No problem! Just launch your Admin App, and log in!

The screenshot shows a web browser window with the title 'Cash Poker Pro'. The breadcrumb navigation at the top reads 'Cash Poker Pro > Reseller > Club > New tournament'. There is a 'Back' button on the left and 'EN' and 'Log Out' buttons on the right. The main header features a large image of a poker tournament with the text 'Tournament Name' overlaid. Below this is a 'Show Details' link. The main content area contains the following settings:

- Tables:** Three tables are selected, each with a checked checkbox and a table icon.
Table 1: 9 seats
Table 2: 7 seats
Table 3: 9 seats
- Game:** Three dropdown menus are set to 'Holdem', 'No limit', and 'Single game'.
- Speed:** A dropdown menu is set to 'Turbo'.
- Buy-in:** A text input field contains '1 000.00'.
- Rebuy:** A checked checkbox.
- Add-on:** A checked checkbox.
- Late registration:** A checked checkbox.
- Club income:** A text input field contains '10', followed by a '%' symbol.

A 'Start registration' button is located at the bottom left of the form.

What the staff sees

The staff walks around the club with just mobile Tablets.

Each employee has access to information that he or she is allowed to know due to a flexible User Permissions System.

You or your employees can sell chips to clients with a touch of a button.

Bet caps and other Table parameters of can be changed at any time by a selected group of staff members.

Play fast!

Cash Poker Pro greatly simplifies the work of the Employees and Administrators of the club, but how does it benefit your PLAYERS?

The main advantage is the extremely low Hand to Hand delay of our Tables and their speed/ratios - several times faster than when played even with a very experienced Dealer.

The average speed of the Table is 50 hands per hour! You simply can't achieve this with a real Dealer.

100% accuracy

It's not a secret that even the most experienced Dealers can sometimes get confused with the rules, when there are lots of games available.

Electronic Tables don't have this problem, hence allowing you to provide an impressive and constantly growing list of games for your Players.

A new way of thinking

16

Cash Poker Pro is not just an Electronic Table, but also a whole ecosystem surrounding it!

Use a custom system of bonuses and rake backs, multi-level progressive jackpots, professional multi-able tournament software, Dealer Choice gaming option, wide range of poker games and many more...

Bonus system

Complete your Poker room with wall-mounted screens that display information of current jackpots, winners or state of a Table participating in a Tournament.

Bright future

Our team is working on the future Online aspect of the game and an App your visitors can use to play the games even when away from the Tables.

The App will also contain information about upcoming events and promotions, so that customers do not miss anything interesting

Non-stop improvement

We are constantly improving our product. With the feedback we receive from our Clubs and Partners we make it better with each passing day.

Every week the Table Software gets automatically updated to the latest version.

And yes, for Table owners Software updates and improvements are **100% Free!**

Cash Poker Pro Table Cost

Cost of one Table (Software license included): **9 999**

USD,

which is the lowest price on the market

20 000 USD

The average income per Table per Month with blinds at \$1-2 and a rake of 5%

Cash Poker Pro royalties

For the use of the Cash Poker Pro Software the club pays royalties in the amount of up to 25% of the total amount of fees collected by a Table for the calendar month. The calculations are made on prepayment bases.

This is how you increase YOUR profit with our Tables:

- You do not need to pay the Dealer and other staff.
- The Table serves a greater number of hands an hour.
- No risk of player/employee conduct fraud. All chips and actions are logged at all times.
- Cash Poker Pro system is built to motivate Players to come back time and time again.

Your style

We provide the opportunity to change the design of our Table Software using your logo and corporate identity.

In fact, any Table can be custom-built to your individual designs and sizes!

Advertising platform

Table screens are available for placement of video advertising. Ads are placed in the whole Cash Poker Pro Tables network.

The architecture of our software allows integration of your own information and notification systems.

TOP Reliability

The Table can serve players 24 hours a day, 7 days a week.

We are serious about providing top reliability. We use retina displays, multi touch sensor panels and mini PCs. All components make use of power-saving technologies to minimize running cost and maximize service lifetime. In case of necessity every System component can be safely replaced in the shortest amount of time.

Absolute Stability

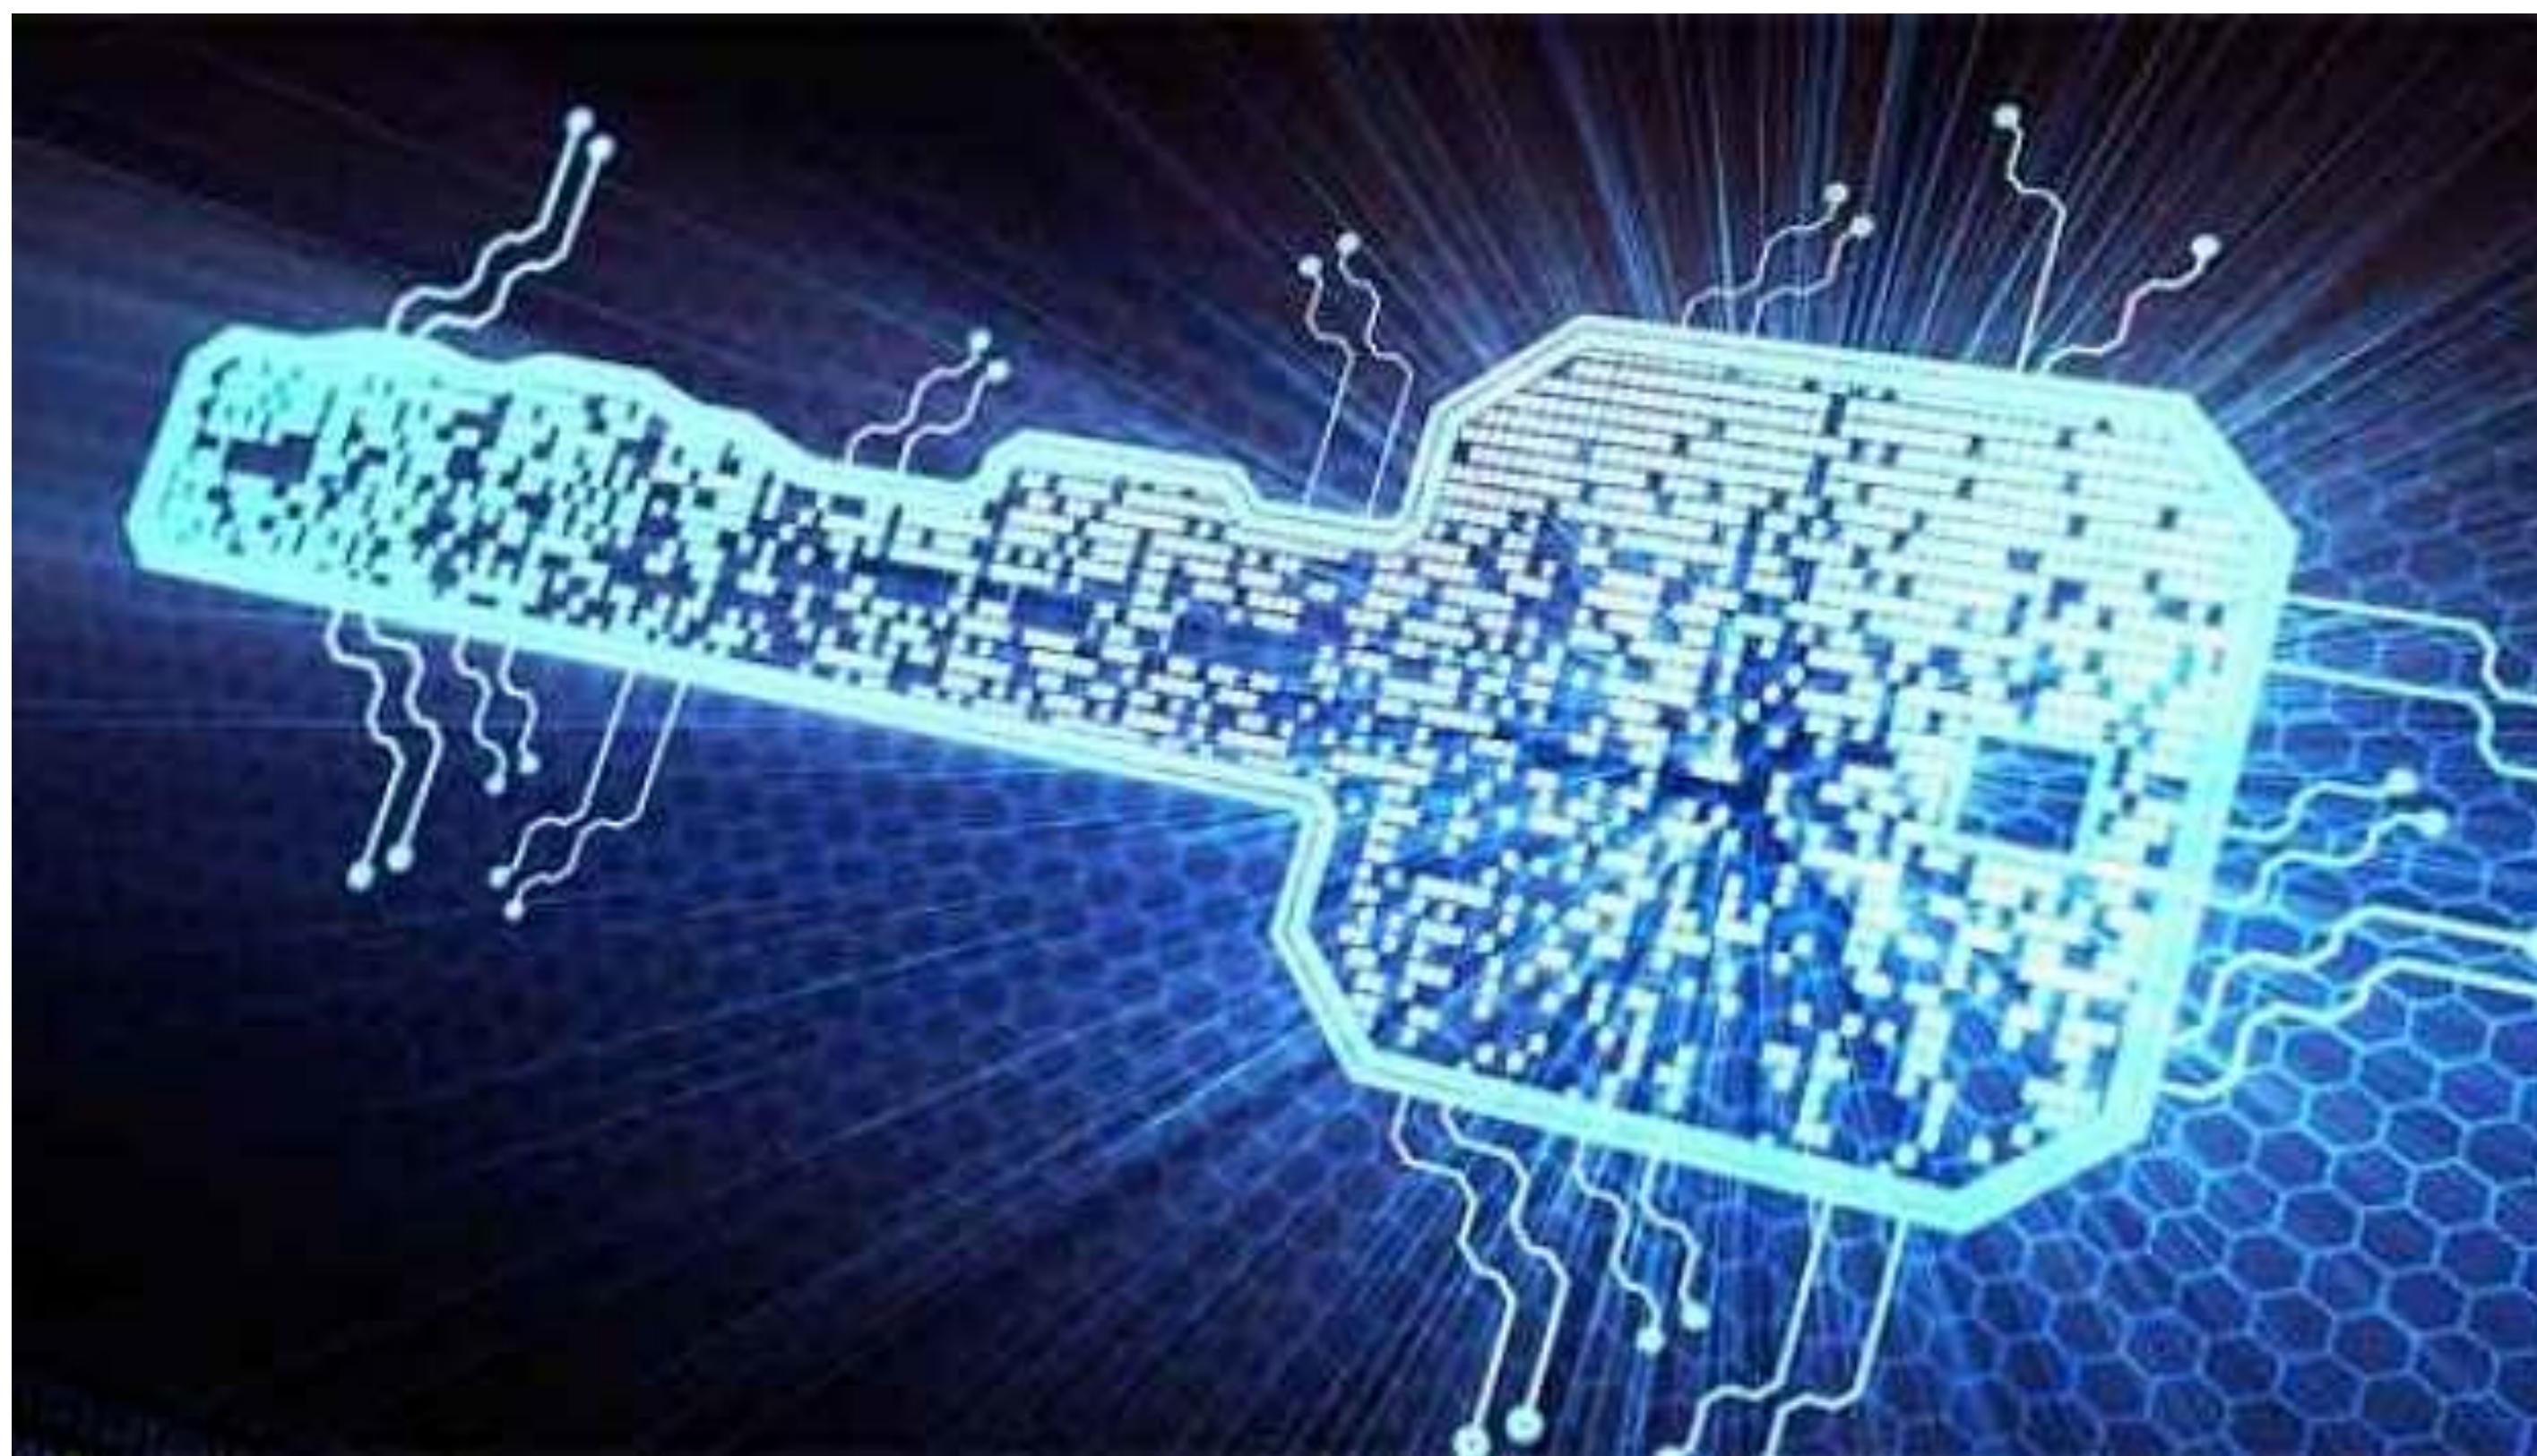

Stability and uptime are the key to the success of any system.

In case of blackouts or problems with the Internet, the game is frozen, **nothing is lost**.

After the connection is reestablished, the game will continue from the point in time where when outage happened.

Loss of chips is impossible in case of outage of any degree. Again – **nothing is ever lost in our System**.

If you have any questions, you can contact our technical support 24/7.

Embedded Table Electronics run the Linux operating system, which is an international standard for continuous and web-systems

Security

All connections between Clients and Servers are encrypted.

Since all the calculations are performed on the Remote Server it's impossible to predict the future cards dealt in any way.

Cash Poker Pro E-table for gaming zones and casinos

For gaming zones

Our Electronic Tables fully replicate all possible Casino Poker features usually done with Live Cards and Dealers.

If necessary, in order to avoid any doubt, the Server part of the program can be certified and placed on an independent third-party server.

Cash Poker Pro E-table for gaming zones and casinos

Legal regulation

The modular architecture of the program allows you to make the necessary additions and improvements to ensure compliance with local legislation and customer needs.

Taking into account the flexibility of the game platform in many countries Electronic Poker Tables can be certified as Slot Machines, which greatly reduces the tax costs.

Cash Poker Pro E-table for countries where gambling activities are prohibited

For countries where Cash Poker is prohibited:

Currently, we can provide the following solutions:

- Working under the license issued for organization and holding the Totalizer. Kazakhstan Clubs are an example of such a solution.
- The organization of a School of Poker with the main activity of the poker room listed as a Training Poker Game/Sport Poker without an agreement on the winnings and payment of winnings (“cash outs”). Examples: Russia, Kazakhstan.

No gambling? No problem:

We are a **team of professionals**

Our Team

If you're looking to create your own online poker room, integrated into social networks, instant messengers or corporate projects – let us know.

We can then develop top Software solution for your needs, strictly in accordance with your requirements and then provide quality support.

The cost of making online poker room depends on technical specifications of the customer. Simply contact our sales representative and we will estimate the development and maintenance cost of your project.

Simply put: if you need something done the best way possible – **we are who you looking for.**

Investment opportunities

We are ready to engage with new partners and third-party investment organizations interested in our Cash Poker Pro project and to promote the Product and the Brand name on the international markets.

Partnership

We are looking for:

- Partners/co-investors for local projects;
- Establishment of new Poker rooms in gambling zones and casinos;
- Organization of life tournaments;
- Programming new games based on the customers ' requirements (baccarat, black Jack etc.);
- Creation of on-line poker rooms of different types (for social networks, messengers, apps);
- Development of Gaming Equipment and Software.

Nevertheless we are interested in a global partnership (specialized companies in the gambling industry or private investors) to share sales of our Cash Poker Pro company Products.
